PROFESSIONAL SUMMARY

Computer Science engineer pursuing M.Tech with hands-on experience in Python, Machine Learning, NLP, and Generative AI. Published researcher in fake news detection using DistilBERT, with two years of prior teaching experience. Seeking a Software Developer role to apply strong programming and problem-solving skills.

TECHNICAL SKILLS

Programming Languages Python, C, C++, SQL

ML / NLP / GenAI Scikit-learn, TensorFlow, DistilBERT (Transformer-based NLP), Deep Learning, NLP Text Preprocessing, Generative AI Fundamentals

Libraries & Tools Pandas, NumPy, Flask (REST API development), Streamlit, Git/GitHub

Web Technologies HTML, CSS

Core CS Subjects Data Structures & Algorithms, Machine Learning, NLP, Deep Learning

SELECTED PROJECTS

Fake News Detection Using Machine Learning and NLP | *Academic Project*

- Developed an ML-based system to classify news articles as real or fake using NLP.
- Performed text preprocessing, tokenization, stop-word removal, and feature extraction.
- Trained and evaluated classification models and built a user-friendly web interface for real-time verification.

Tech: Python, Machine Learning, NLP, Pandas, Scikit-learn, Flask

Colour Detection Using Machine Learning | *Personal Project*

- Built a system to identify and classify colours from image/video input in real time.
- Applied image processing techniques in Python to accurately detect colour values.

Tech: Python, OpenCV, Image Processing

PUBLICATION

A Comparative Framework for Fake News Detection Using DistilBERT and Machine Learning Algorithms | *Kolati Abhishek Babu, Persis Voola*

Journal of Computing and Data Technology, Vol. 2, Issue 2, pp. 165–171 (2026) | Krrish Scientific Publications Pvt. Ltd.

DOI: <https://doi.org/10.71426/jcdt.v2.i2.pp165-171>

- Fine-tuned DistilBERT for binary fake-news classification, achieving 99.00% accuracy versus 95.67–97.93% for TF-IDF-based Naive Bayes, Logistic Regression, and Random Forest baselines.
 - Benchmarked all models on the LIAR and ISOT datasets using accuracy, precision, recall, F1-score, and ROC-AUC (DistilBERT AUC $\approx$ 0.95).
 - Deployed the trained DistilBERT model as a Streamlit application with real-time Real/Fake prediction, confidence scoring, and a token-level (SHAP-based) explanation view.
-

PROFESSIONAL EXPERIENCE

Machine Learning Intern : National Institute of Technology (NIT), Tadepalligudem *4 Months*

- Worked on detecting electrical faults in power systems using machine learning algorithms.
- Analyzed electrical data to classify fault types and improve system reliability using ML models.
- Gained hands-on experience in data preprocessing, model training, and result evaluation.

Tech: Python, Machine Learning, Data Preprocessing, Model Evaluation

Teacher : St. Mary's E.M. School, Parthipadu 2022 - 2024

- Planned and delivered lessons and prepared assessments as a full-time teacher.
- Mentored and guided students, monitoring academic progress and providing regular feedback.
- Strengthened communication, classroom management, and organizational skills over two years of service.

EDUCATION

M.Tech (CSE) Adikavi Nannaya University, Rajahmundry (AKNU) 2024 - 2026 (Pursuing)

B.Tech (CSE) West Godavari Institute of Science & Engineering, JNTU Kakinada 2018 - 2022 | 7.0 CGPA

CERTIFICATIONS

- Deep Learning with TensorFlow — Infosys Springboard (June 2026)
- Certificate of Completion — ExcelR (Google-certified program)
- Ethical Hacking & Cyber Security — Supraja Technologies
- Data Science Training Program — 360DigiTMG
- Artificial Intelligence Program — APSSDC (Andhra Pradesh State Skill Development Corporation)
